LEDPlus

Dimming Control

For use with SloanLED Cold Series refrigerated display units

Occupancy sensor based dimming to increase energy savings while maximizing visual appearance of merchandise.

- Extends LED life
- Selectable dimming power levels
- Available with standard or wide angle sensor
- **Up to 50% increase in LED energy savings with dimming**

Specifications

Electrical

Input range	8 - 28 VDC
Power	100 W Max
Current	4.1 A Max

Performance

Operating temperature	-40 °C to 50 °C
Control	Dim mode brightness may be set to 50%, 25% 12.5% or 0% of non-dim state brightness (25% is the default setting from factory)

Construction

Housing	Plastic overmold
Body color	White

Documentation

Warranty	5 year limited
Agency listings	UL, CE, RoHS
Files available	OEM data sheet (sensors)

Settings

### Brightness
Selectable Duty Cycle output via SW1 and SW2
(Brightness Level when shoppers in area)

SW1	SW2	SW3	SW4	Brightness Level
OFF	OFF	X	X	N/A
ON	OFF	X	X	Energy Saver
OFF	ON	X	X	Standard (default)
ON	ON	X	X	MerchandiserMAX

Dimensions

RDL-Dimming Controller

Switch

### Dimming
Selectable Duty Cycle output via SW3 and SW4
(Brightness Level when area is not occupied)

SW1	SW2	SW3	SW4	Brightness
X	X	OFF	OFF	0%
X	X	ON	OFF	12.5%
X	X	OFF	ON	25% (default)
X	X	ON	ON	50%

Motion Sensors

400661

1.12" x 1.38" x .5"

2.25"   1.625"
