

# Styleline® **SHELVING**

## GRAVITY FLOW SHELVING **SYSTEM**

STYLELINE® understands the importance of keeping the product in front of the shelf.

STYLELINE's Super Slide Trac Gravity-Flow shelving system allows you to maximize your merchandising dollars by doing just that. Gravity flow shelving systems are NSF-approved and can accommodate single can products, gallons and 12 or 24 unit packs. Shelving can be easily arranged by modifying tilt-angle and lane divider width.

- Designed to withstand cold environments and high volume.
- Full perimeter guards adjust vertically to accommodate container
- Lane dividers ensure product is always neatly lined up
- Ideal for displays that change regularly
